

# COSHH Risk Assessment

## ODOUR NEUTRALISER (5 litre)

### Product Code: BF130-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in 5 litre polythene containers in a cardboard carton. Cardboard contains 2 x 5L product.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery to ensure secure storage of the product. Do not leave containers in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Store in original sealed container and protect from extremes of temperature.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Ensure that the product is stored away securely. Keep containers in secure storage areas. Restrict access to storage areas to authorised personnel. Store away from oxidising material.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not split or blown.
<b>USAGE</b>			
For areas with an established and persistent problem, spray the surface liberally to ensure the odour is digested. For more recently contaminated areas, spray the offending material to help neutralise the immediate odour. Remove as much solid by dustpan & blot urine with paper towel. Spray surface once again liberally and allow the product to overcome both the malodour and its cause. Use undiluted.	Risk of eye contact, avoid getting into eyes, may cause mild irritation. Avoid breathing spray. May cause skin irritation. May cause irritation to the digestive tract. May be slightly irritating to the respiratory system. Ensure good ventilation of the workstation.	Handle the containers with care. Ensure that the container is returned to store when not in use. Spray away from the face. Always read the manufacturer's instructions prior to use. Ensure all spillages are wiped up immediately to prevent risk of slipping. Clean contaminated surfaces with an excess of water.	Provide employees with PPE as follows: <ul style="list-style-type: none"> <li>Household gloves if prolonged contact with product is likely.</li> </ul> Ensure that operatives are aware of location of First Aid facilities.
<b>DISPOSAL</b>			
Empty containers must be rinsed thoroughly and disposed of as normal waste. Residual stocks may be disposed of into a foul sewer (sluice) using plenty of water. The product is not considered harmful to aquatic organisms or considered to have long term negative effects on the environment. Recycle all containers wherever facilities are available.	If product gets into eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and possible to do so. Continue rinsing, if eye irritation persists get medical advice.	Wash out the container using plenty of water. Do not store any other material in the empty container. The product is miscible in water and readily biodegradable in both water and soil. Small amount of unwanted product may be flushed with water to sewer.	No specific PPE required unless prolonged contact with product.
