

# COSHH Risk Assessment

**APPLE TAG-UPS** Product Code: BC160

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
<b>DELIVERY</b>			
Packaged in plastic tubs. Tub incorporates plastic handle for carriage. Re-sealable lids. Product is supplied ready to use.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single bags at any given time. Take care not to drop tubs. Ensure that the lid is secured at all times.	Transfer tubs to store immediately following delivery. Do not leave tubs in areas where users of the building will come into contact with them.
<b>STORAGE</b>			
Containers must be stored upright in a cool, dry storage area. Keep away from strong acids. Product must be kept stored in its original container.	Minimal risk of spillage if lids are firmly in place. Lids are not child proof.	Keep tubs in secure storage areas. Store all tubs below chest height to minimise risk of dropping. Risk of emission of noxious fumes if involved in a fire – product itself is not classified as flammable. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that tubs are not split or damaged. Make regular checks to ensure that storage area is clean and dry.
<b>USAGE</b>			
Fragrant plastic apple shaped accessory is suspended from integral tie at point of use.	Slight risk of eye contact. Risk of skin contact.	Ensure that the tub is returned to the store when not in use. Always read the manufacturer's instructions prior to use.	Wear suitable gloves. Ensure that operatives are aware of location of First Aid facilities and personnel.
<b>DISPOSAL</b>			
Residual and exhausted tag stocks can be disposed of with general refuse. Empty containers must be rinsed thoroughly and disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin contact.	Do not store any other material in the empty container.	Ensure that all operatives wear Personal Protective Equipment at all times during disposal.
